## CUSTOM DESIGNED PROTECTIVE DUNNAGE

NW Packaging can custom design container dunnage for your specific needs. Custom interiors will maximize container utilization, while protecting your valuable parts from damage. A variety of materials are available, including:

- Class "A" surface compatible materials
- Brushed nylon
- Foam
- Conductive and anti-static materials
- Suspended sling systems
- Bin liners and stock layer pads / divider sheets
- Thermoformed plastic trays

Our Design and Sales staff will work closely with you to create the most efficient and cost effective protective dunnage to complete your returnable packaging requirements. We guarantee your satisfaction with your custom designed and tested packaging system.
